RE: Junior Web Developer, Reference #12321-45

Dear Mr. Dale Caume,

As a huge fan of SimplyCast, I was really excited to see this posting for a Junior Web Developer. I feel like I'm a great match for the job and a great fit with your organization and I wanted to contact you to express my interest. I will be graduating from Nova Scotia Community College, earning my Diploma in IT Web Programming in June of this year and I'm currently seeking remote or hybrid opportunities to build upon my newfound skills and knowledge. Your ad called out to me because the position, as described, is such a perfect match with my skills, as you will see when you review my resume.

The value I will bring to your organization includes a comprehensive skill set developed through my academic and employment experiences. I am well-versed in modern web technologies such as HTML, CSS and JavaScript while also offering extensive communication and teamwork skills from my 15 years of experience in customer service. I would love to be able to put my skills to work for SimplyCast.

As my enclosed resume will demonstrate, I possess the web development skills and abilities that you require in a new Junior Web Developer. Please feel free to contact me for additional career details or to schedule an interview. I look forward to discussing the possibility of joining SimplyCast's team.

Thank you, in advance, for your valued time and consideration.

Best regards,

Sarah Browning
